

NATIONAL PARK SERVICE  
STATEMENT ON LAND EXCHANGES IN FY 1999

The following information is provided pursuant to House Report 99-714, which advises each acquisition agency to provide a detailed listing of proposed exchanges and related expenditures. The following is a tentative list, by State, of land exchanges that the National Park Service expects to be working on and the related costs in FY 1999. The actual exchanges to be worked on in the fiscal year may vary considerably from the list because there can be no certainty about the time of completion of exchanges now in progress, their success rate, or additional exchange opportunities that may arise. Costs shown include: (1) direct personnel costs needed to accomplish exchanges, paid from acquisition management funds, and (2) costs of appraisals, surveys, and similar items, paid from funds appropriated for acquisition at specified park units.
